

QUIZ

Here is your quiz. Most of the answers are within the text of the tutorial but not all of them. You will have to do a little reading to get all of the answers.

1. Define acute rhinosinusitis and chronic rhinosinusitis.
2. What are the common organisms causing rhinosinusitis and how are they treated.
3. Which forms of rhinosinusitis should you use nasal steroid sprays for?
4. Name the nasal steroids commonly available in Cambodia.
5. Describe the technique of using a nasal spray.
6. Where might disease from the sinuses spread?
7. How do you treat simple rhinitis?
